### Prior learning:

- To use professional examples to inspire ideas for explosive action.
- To own and explore new movement possibilities.

### Key skills:

1. To work collaboratively to include more complex compositional ideas.
2. To talk about different styles of dance with understanding, using appropriate language and terminology.

### Vocabulary:

tension

To tense muscles to control your body more.

practice

The application or use of an idea, belief or method.

motifs

A feature that is repeated in the dance.

self-composed

Created on your own.

formation

An arrangement of people in a dance.

### Equipment

music

cones

### Key Questions:

- Do you think you captured the street dance style?
- If you were going to perform as a small group, rather than a pair, what compositional ideas could you use to extend your phrase? (formations, canon, lifts etc)
